[Portofoliu Proiecte](#)

Summary

I am a passionate full-stack developer with solid experience in building scalable and high-performance web applications, using modern technologies such as NestJS for the backend and Next.js/React.js for the frontend. In addition to my professional work, I founded and manage world-it.ro, a website dedicated to the IT field. I am an organized, adaptable person with a strong ability to learn quickly. I enjoy collaborating and supporting my colleagues, with experience in onboarding and mentoring new team members.

Experience

Web Developer – Syscom Digital, Bucharest Prezent

Oct 2021 –

- Developed and optimized full-stack websites, significantly improving web performance metrics and delivering fast, scalable user experiences.
- Developed production-ready newsletters and sales campaign websites for major clients like Sephora and Coca-Cola, transforming Illustrator and Photoshop designs into functional code across different markets, while also creating an internal application that reduced newsletters creation time by 70%, automating and streamlining the workflow.
- Designed and developed admin interfaces for websites, featuring login systems, tables, and Excel export functionality from tables stored in a **PostgreSQL** database.
- Developed interactive games, creating engaging and dynamic user experiences with custom logic and animations tailored to specific project needs.

Founder & Administrator – World-IT.ro Prezent

Mar 2016 -

I founded and manage **World-IT.ro**, an educational platform designed for technology enthusiasts, offering high-quality resources in the IT field.

- **700+ daily active users**, demonstrating strong engagement and consistent traffic growth.
- Established **partnerships with multiple tech websites**, expanding the platform's reach and credibility.
- Referenced by **high schools** as a learning resource, directly contributing to student education.
- Successfully implemented **Google Ads**, optimizing monetization strategies to maximize revenue.
- Managed **SEO optimization, content updates, and UX improvements**, ensuring a seamless user experience and high search engine rankings, with **many articles appearing on the first page and even ranking #1 on Google** for relevant search terms.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript
- **Frontend Frameworks:** React, Next.js, HTML5, CSS, SCSS, Tailwind, Bootstrap
- **Web Technologies:** Node.js, NestJS, PHP, Java

- **Backend:** Node.js, NestJS, PHP
- **Design:** Photoshop, Illustrator,
- **Database:** SQL, PostgreSQL.
- **Other Skills:** Git, GitHub, Great Understanding of Agile Scrum, Microsoft Office

Education

 **Politehnica University Timisoara**

Ian 2017 - Iun 2021

Inginerie energetică, Ingineria sistemelor electroenergetice

Soft Skills

- -Communication, Collaboration, Problem-Solving, Analytical Thinking, Time Management, Multitasking, Mentorship, Fast Learning, Self-Improvement, Flexibility, Attention to Detail, Creativity, Continuous learning and adaptability.

Courses

- Academia Britanica de Afaceri si Comunicare: Certification, Webdesign and Web Technologies Course – CSS, Javascript.
